

# Career and Technical Education

Career and Technical Education at Legend High School will create opportunities for students to enrich their educational experience and be better prepared for college or the future global workforce through Science Technology Engineering and Math STEM fields. Career Clusters in Transportation and Technical Sciences; Information Technology; Digital Animation; Agricultural and Natural Science; Health Science and Public Safety; and Business and Public Administration are areas that will be developed in conjunction with Arapahoe Community College and Industry Partners. These courses are designed to provide dual or concurrent college credit, work experience and internships, certification and employability skills, leadership through hands on application, and critical thinking. Career and technical education instills transferable skills that are applicable to many occupations and anchored in strong academics. Students will build upon the core foundation with technical skills and real world experience with industry partners. Opportunities for career and technical application in various career fields will provide students with the skills to be successful in the 21<sup>st</sup> century global society.
