

**What: NFC and AFC Playoffs & Super Bowl Pool**

**How:**

- 100 squares available per game board (our goal is to fill 2 game boards)
- Each square costs \$25 (buy as many as you like)\*
- You get 3 games and 12 chances to win per square
- Each game, new numbers will be drawn - Numbers are chosen from [www.random.org](http://www.random.org)

The object is to have the combination of numbers that match the last numbers in the score of the game. Payouts are based on the score of each team at the end of each quarter. Please note that the digit used is always the second number. Example: Your square represents a 6 for "Team A" and a 9 for "Team B", you win money if the score for "Team A" ends in a 6 and the score for "Team B" ends in 9 at the end of any quarter. You can win multiple times during each game.

When you buy one square, it's yours for all 3 games. There are 2 playoff games (AFC & NFC Conference finals on January 22nd), and the Super Bowl (February 5th).

The first 2 games pay: 1st Qtr-\$50, 2nd Qtr-\$50, 3rd Qtr-\$50, final score \$100

The Super Bowl pays: 1st Qtr-\$100, 2nd Qtr-\$100, 3rd Qtr-\$100, final score \$200
